A suitable measuring device must be installed and accurate measurements of water placed to beneficial use must be kept.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is limited to the irrigation of 32.16 acres within the described place of use and not to exceed an annual duty of 4.0 acre-feet per acre of land irrigated from any and/or all sources. The period of use is as decreed.

The issuance of this temporary permit fully abrogates 180.297 acre-feet per season associated with the 51.462 acres under Truckee River Claims 66 and 67 as described in the existing place of use.

The issuance of this temporary permit is for the consumptive use portion only, being 2.5 acre-feet per acre of the base right. The remaining portion of the base right will remain in the river for use by other decreed right holders.

A monthly report shall be submitted to the Federal Water Master within 10 days from the end of each month, which shall include the amount of water diverted and the amount of water used.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on July 27, 2006 at which time all rights herein affected (180.297 AF) shall revert to the right being changed by this temporary permit.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.58 cubic feet per second, but not to exceed 128.655 acre-feet decreed
